Martin Breit completed his work
of installing and adjusting our new
Model 8 Linotype Tuesday and re-
turned to San Antonio on the even-
ing train. Since then the machine
in the hands of our Mr. Williams has
been behaving like a well-trained cay-
use and has poured out a line of
work beyond our greatest expecta-
tions. If the performance of the
machine for the first few days is
to be taken as a measure of Mr.
Breit's ability as an erector he knows
his business. We are not making
any big claims, but besides handling
The Huajillo Leaf this week we are
in a fair way to get out on time
with the Anvil Herald—for the sec-
ond time only since getting back into
harness.

James Cruseturner, youngest son
of Mrs. K. Cruseterner, was taken
to the Santa Rosa Hospital last
Thursday a week ago where he had
a double Hernia operation. The
trouble was caused by playing pop-
the-whip at Enterprise school about
a month ago. Mrs. Cruseturner re-
ports the young man stood the op-
eration fine and is recovering rapid-
ly. It looks as though Mrs. Cruse-
turner has had her share of troubles
lately, as her oldest son has been
unable to walk since July 4th, 1920.
The older Mr. Cruseturner sustained
injuries in a jitney accident in De-
cember, 1917, and has never fully
recovered.

The Rondoliers, the second in the
series of Lyceum attractions being
promoted here by the Hal Jones Post
of the American Legion, gave a high-
ly creditable musical at the Auditor-
ium Thursday night. The program
was especially appealing to the mu-
sically inclined, and shows that the
Legion has been fortunate in its se-
lection of attractions.

There were forwarded from the
depot here during the past week car-
load shipments as follows: Corn, 6
cars; Hay, 4 cars; and Hogs, 1 car.
There were received during the same
time, 1 car of mules, 1 car of lumber,
1 car of fence wire, 1 car of flour,
1 car of gasoline, 1 car of Ford cars,
and one car of Overland cars.

The January 23rd cotton report

1920 crop showed 4,275. The fig-
ures for the state for the same peri-
ods were 2,120,693 and 3,861,441
bales respectively.

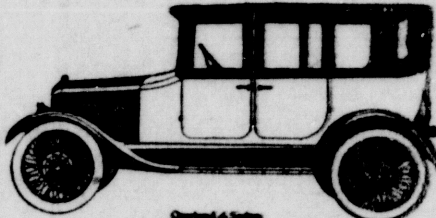

Saturday evening a number of

Its Fuel Economy is Most Pronounced
in Winter

Overland owners who get 25 or more miles per gallon of
gasoline in Summer take even greater satisfaction in
comparing mileage with other cars in Winter.

No car at any price matches Overland economy and
none at its price equals its comfort.

Style and Completeness

The high radiator and straight-line bonnet and cowl, the
slanting rain-vision windshield, the one-man top, and
full-crowned fenders are details that contribute to the
Overland's attractive appearance.

The electric starting and lighting system, demountable
rims, complete instrument board, detachable Duratex
and storm curtains which open with the doors are details
of the car's distinctive conveniences.

The Overland combines the economy of the light car
with the comfort and luxury of the high-cost, heavy
car. The longer you ride in it the better you like it.

"Purina" Made the Difference!

EQUAL in laying ability. But the hen on the right was fed a common grain ration while the other was fed Purina Chicken Chowder and Purina Hen Chow. Grains have lots of material for yolks, but far too little for whites. As they can't lay yolks only, grain-fed hens lay fewer eggs.

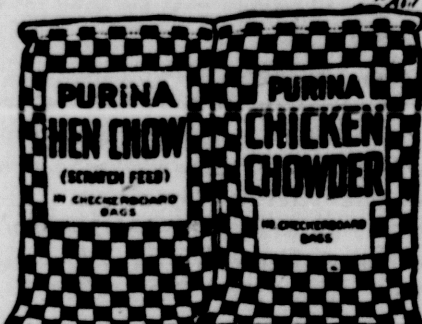

Purina Poultry Chows

form a complete ration, containing material for an equal number of whites and yolks. They get the most out of your hens, and cut the feeding cost per dozen eggs.

More Eggs Guarantee
You get your money back if Purina Chicken Chowder and Purina Hen Chow, fed as directed, don't produce more eggs than any other ration. Why should you put off a trial when we take the risk?

Judge M. Schorobiny was in town Thursday from the Quilhi section. The Judge has confined his farming operations for the past three years to raising grain crops, this being made necessary on account of boll weevils, but this season he will return to his first love—cotton—and will plant a large acreage in this crop.

After the musical program rendered by "The Rondoliers" under the auspices of the American Legion, some of the young men took advantage of the presence of these expert musicians in our city and employed them to play dance music, and the young folks enjoyed an hour and a half of unalloyed bliss.

The DELTOR

This is one reason why the addition of the Deltor subtracts the entire price from the Butterick Pattern.

Your layout is specially worked out for your size and for the width in which your material comes.

With the Deltor layouts you lay your pattern on your material as fast as you can pin it in place. Our highly trained experts spent hours on the task.

What is your time worth?

You pay your cleaning woman fifty cents an hour. Your time is worth more than that. More than the price of the pattern.

So the Butterick Pattern with the Deltor costs you less than nothing.

SATURDAY, FEBRUARY 11, 1922.

From a conference, composed chiefly of men who are drawing handsome salaries on the public road work of the country, and held under the influence if not the auspices of the Texas A. & M. College, there has just emanated a resolution proposing another amendment to the Texas State Constitution. This circumstance would not be of any special note, as the people have become accustomed to this thing of wanting to tinker with the Constitution on the part of every one with a pet scheme to put across, but emanating as this does from the same source whence other Federalizing influences have come, and proposing to so change our Constitution as to make it conform with certain Federal road-building schemes, it should have the closest scrutiny of the people. When the fathers of our Federal Constitution empowered the Federal government to establish and build post roads, they contemplated only the construction, unmolested by the States the roads must traverse, of roads to the frontier army posts so as to facilitate protection of the country against the Indians. Doubtless it never occurred to them to expect otherwise than that when the menace of the Indians ceased, the building of post roads would end automatically. But under modern pork-barrel politics, this system of building post roads to isolated army posts has been enlarged until roads are being built all over the country on a partnership basis wherein the Federal government pays part provided the States will match the appropriation with certain amounts. The system is vicious in that it constitutes a Constitutional authority of the Federal government to a purpose not contemplated by those conferring that authority on the Federal government and it taxes the people to maintain both an expensive national and a highly ornamental state road department to jointly perform a work which rightfully belongs to neither agency, but to the various counties of the several states. This latest proposal to delegate purely local rights and duties to the joint control of the state and federal governments, to be dominated and controlled by the latter, should give us pause. Let's get back to the old Democratic landmarks of local self-government or let's end the farce and save the expense by wiping out state and county lines and take our edicts from the National capital.

THE MONTH OF FEBRUARY.
From The Huajillo Leaf.
February seems very small and insignificant to us, since it is the shortest month of the year. Yet, do we ever stop to think of its importance, in that it contains the birthdays of some of our greatest men in history? No, I dare say we do not, for if we should, we would never say it was insignificant.

The eleventh of February marks the birthday of Edison, the greatest inventor America has ever known. It would indeed be hard to enumerate the many useful machines Thomas A. Edison has invented for the world. He began with little education, but gradually he raised his position to a high one by reading and studying. He invented the phonograph, a water telephone, and the electric lights, besides many other important machines.

Then, the twelfth is one of America's greatest statesmen, Abraham Lincoln's birthday. From a poor uneducated boy, he arose to the position of President of the United States. Mr. Lincoln was president while the Civil War was raging, and in 1861 he issued his notable "Emancipation Proclamation" which is known all over the United States.

The fourteenth of February marks the birthday of St. Valentine, a legendary character. St. Valentine was a kind old monk who always remembered the children's birthdays by making them little presents, or giving them flowers from his flower garden. After his death, the children began doing little kind deeds and sending kind messages to their friends on his birthday; thus, we continue the custom.

The twenty-second of February is the date which is, perhaps, the best known of all. It is the birthday of George Washington, America's first and greatest president. Not only is Washington prominent as a statesman, but also as a soldier. Washington possessed those principles of truth and honesty which made him beloved by everyone.

Henry Wadsworth Longfellow's, the children's friend and poet, birthday is the twenty-seventh of February. We are all acquainted with the poems of Longfellow and we appreciate him as one of our greatest American authors.

Two other great men, whom we have heard a great deal about, also have February as the month of their birthday. These men are Dickens and Sherman, and I am sure we all remember the great deeds for which they are famous.

A SAFE TEST
For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Hondo people.

Mrs. X. Wantz, Hondo, says: "My kidneys were disordered for some time. A dull, bearing down pain appeared in my back which greatly increased until I had to give up. I couldn't stoop or straighten without severe pain. I saw Doan's Kidney Pills advertised at Martin's Drug Store. From the start Doan's did me good and I gladly recommend them to others." (Statement given May 29, 1915.)

On May 3, 1919, Mrs. Wantz said: "I think just as much of Doan's Kidney Pills today as when I gave my former statement. The cure Doan's worked then has proven permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wantz had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

BIG MOTOR BOAT ON WAY TO MEDINA LAKE.

The largest motorboat ever seen in San Antonio passed through this city yesterday afternoon on a big truck on its way to Medina Lake. The boat is 40 feet long, with a nine-foot beam, equipped with a cabin, and will carry 35 passengers. It is the property of Capt. F. A. Talmadge of Medina Lake, and will add greatly to the facilities for visitors who wish to make a trip on the lake. The boat was built in Austin, according to W. H. Furlong of the highway department of the Chamber of Commerce, and brought by truck from Austin to San Antonio and thence to Medina Lake.—San Antonio Express.

TWO ARRESTED AT KNIPPA.

Knippa, Tex., Feb. 4.—Sheriff Hammer Johnson of Uvalde was in Knippa and arrested two Mexicans, Joe Martinez and Tomas Alamilla, in connection with the robbery that occurred at Hondo Sunday night. Alamilla made a confession and is said to have told where the loot was hidden, on the Nueces River. The two are in custody and investigations are being continued.—San Antonio Express.

Alban was threatening to discharge an employee the other day. "What's wrong?" says us. "Distance between his ears," replied Frank. "How far?" "One block."—Shop News.

EDITORIALS BY THE EDITOR.

A FLOWER FOR DAD.

I think it's a beautiful custom; Wearing flowers for the mothers we've had; But I wish someone would start up the fashion Of wearing a flower for dad.

There's only one reason against it— If you're ashamed of the father you had, You are excused then entirely From wearing a flower for dad.

The mothers, so gentle and loving— (For only a few have been bad) Are worthy our reverent affection; But—what is the matter with dad?

For he has kept right along working Times when he felt sick and bad, So that his family had something— Why not wear a flower for dad?

His life has not been strewn with roses, More weeds and more thorns, he has had; And so, while we're honoring mother, Let's each wear a flower for dad.

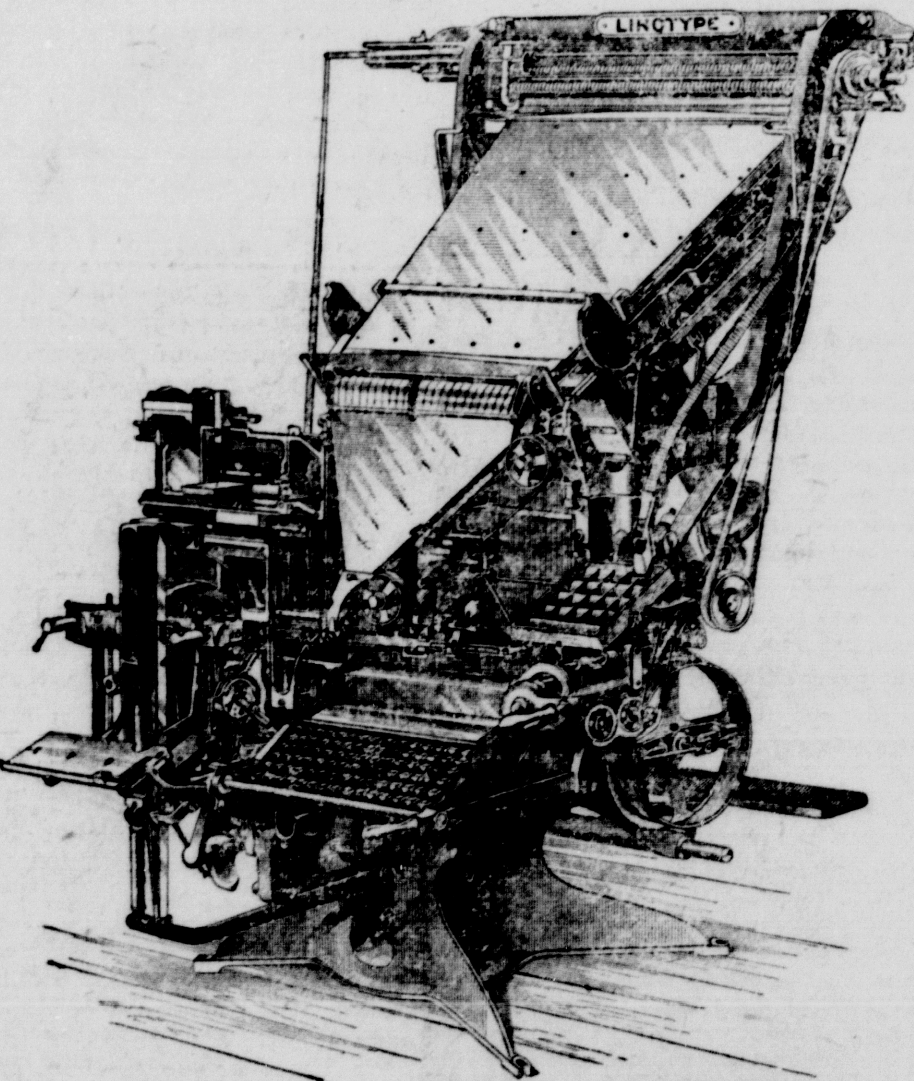

Don't wait to put wreaths on his casket, Then whisper with voice low and sad; "I wish I had told him I loved him, And given more flowers to dad."

For then he'll not need them, remember; But now they might make him feel glad; And so, while honoring mother, Why not wear one flower for dad?

—Minnie E. Cone.

How do you like our machine-made page this week?

The average dad's conception of flowers is something to be watered and tended at the behest of "the boss."

Our New Linotype.

With a good deal of satisfaction the editor of this paper announces the installation of a new Linotype. This mechanical marvel qualifies us to serve efficiently the large number of persons who look to our publication for enlightenment and entertainment, and who patronize our job-printing department. The rapidly increasing circulation of our papers together with our desire to place at the command of our advertisers and others the highest grade of typography, induced us to secure a fine composing machine for the quick and accurate and pleasing presentation of the news of the day, and the production of superior job work.

Our new Linotype enables us to set by machine many forms of composition that previously necessitated tedious work by hand. At a high rate of speed the versatile operator—whose hand is made famous by the Mergenthaler Linotype Company as "the hand that keeps the world informed"—produces line after line of the sort of composition desired.

This installation is a testimonial to the prosperity of Hondo and vicinity. And that the good people of the community are duly appreciative of our efforts to serve them in all departments of the printing business is manifested by the many compliments received from individual patrons since the arrival of our new machine. The accompanying illustration will give our readers some idea of the

Smiling—and doing your best—as you go Along life's way, with patient steps and slow, Is the surest way to hand out flowers To bless and cheer another's toilsome hours!

The Catholic Church has a new Pope in the person of Pius XI, formerly known as Cardinal Ratti, an Italian and Archbishop of Milan. It is to be hoped that he may witness a period of peace throughout his reign and not have his heart made to bleed, as was that of his predecessor, Pope Benedict XV, by a suicidal war.

The "movie" people are just bound to "keep in the light" and "entertain" the public. The filthy details of the Arbuckle debauch had scarcely ceased fouling the front pages of the daily papers when one Taylor had to get himself killed under circumstances such as to add much publicity but no lustre to the name and fame of several movie actresses. Judging from circumstances rising up before the public gaze now and then Sodom and Gomorrah had nothing on the rottenness of life in California's movie colony.

Attention is called to a letter from Commissioner Geo. B. Terrell, printed elsewhere on this page. It explains itself. It is to be hoped that some of the readers of this paper will volunteer to give Mr. Terrell the information he seeks. By doing so, you will not only help him in his efforts to help the farmers as a mass but you will help yourself individually. If all the cotton farmers of this country would go to keeping a faithful, accurate account of the cost of producing their crops it would take no outside urging to reduce the cotton acreage of the country.

Some people are not very particular with the playthings they toy with. Of all the disgustingly filthy things that has floated to the scummy surface of these exulting times, the Ku Klux Klan is it. Hidden in the utmost secrecy by its most ac-

tive participants, it is loathed and hated by all brave, courageous men who scorn to cover their acts. And Houston—Judd Mortimer Lewis's "Heavenly Houston"—is a fouled nest of these night-flying birds of evil omen. And right into the midst of this fetid atmosphere has gone our friend of a former day, when he edited the D'Hanis News, Ernest Thorp, and established a weekly magazine, The Investigator, to "investigate" this said Ku Klux Klan. Well, if Thorp has enough editorial brimstone in his make-up he may in some measure counter-act the foul atmosphere he has attacked. But—that's why it occurs to us that some people are not very particular what they play in.

The Soldier Bonus is giving the Republican majority in Congress no little worry. The party's leaders would like to cinch the votes of the ex-service men with a bonus. But, while not unwilling to attempt to bribe the ex-service men in this way, even Republican ingenuity has been unable to devise means of giving money to one class of citizens without taxing it out of the pockets of some other class of citizens. Not having found a class they are willing to offend and alienate by taxing them for the benefit of the ex-service men, the bonus is up in the air with no prospect of any immediate settlement to the satisfaction of any one. And probably it is well it is thus, for while nothing short of a bonus will satisfy the clamors of those demanding it, a bonus to its defenders is as repugnant (to the spirit of a free republic) as was the conscription that took them into the war in the first place. And two wrongs never make anything right. Meantime, those Democrats who are trying to make political capital out of the Republicans' dilemma are playing with fire and are destined, sooner or later, to get burned.

"How's this?" asked the lawyer. "You've named six bankers in your will to be pallbearers. Of course, it's all right, but wouldn't you rather choose some friends with whom you are on better terms?"

"No, Judge, that's all right. Those fellows have carried me for so long they might as well finish the job." —The American Legion Weekly.

For Torp Liver

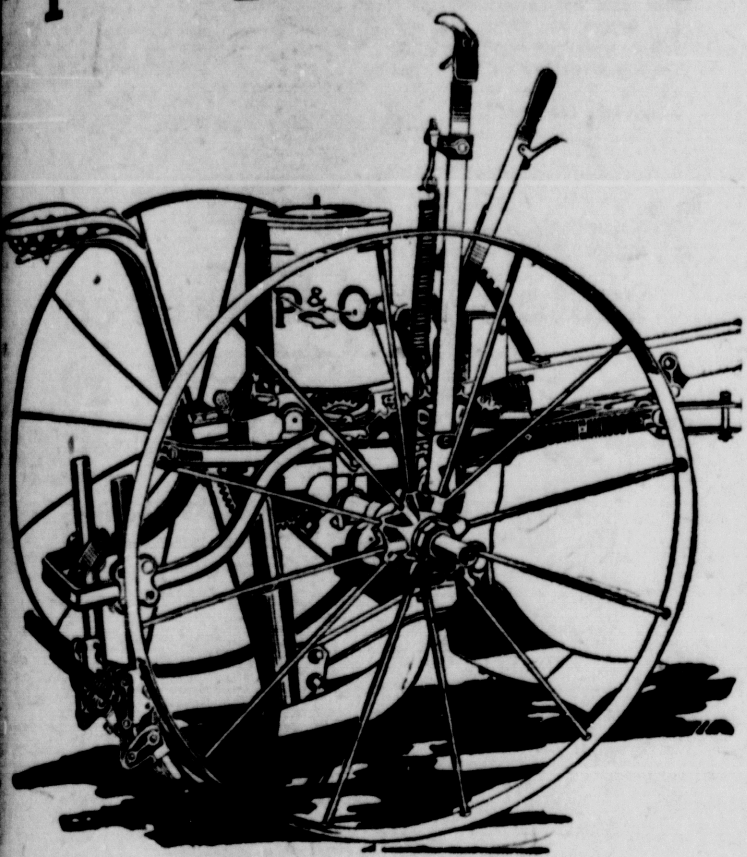

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. White, of Keota, Okla. She continues: "I had a pain in my chest after eating—tight, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid, and certainly gives relief."

Thedford's BLACK DRAUGHT

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver. Indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Thedford's Black-Draught," is on the package. At all druggists.

SELBY WOOLS HURT.

While running a cow Wednesday afternoon, Selby Wools struck a tree and was knocked from his horse. Mr. Wools suffered a fractured jaw and other painful bruises and contusions about the head and face.

The accident occurred near the home of Mr. George Leinweber in the neighborhood of the schoolhouse. Passers-by saw the accident, went to his assistance, and took him to his home. From there he was taken to San Antonio on the evening train, accompanied by his mother, Mrs. Ella Wools, Dr. W. H. Smith, his aunt, Mrs. D. W. Short and his uncle, O. E. Lacy.

Latest reports from the hospital were that while his injuries are painful and will require some time for recovery, they are not necessarily dangerous. He is making satisfactory progress, and his friends are hopeful that his ultimate recovery may not be long delayed.

HONDO SOON TO HAVE NEW POSTMASTER.

Alfred Finger this week received notice that his appointment as postmaster of Hondo has been sent to the Senate for confirmation. Mr. Finger is expecting notice of his confirmation at any time and will succeed M. A. Chancey who has filled the position for the past eight years.

Mr. Finger is a young man and is at present residing on the morning rural route out of Hondo. He is well qualified for the position and will no doubt make Hondo a good postmaster.

The Amazing Speed
Edison made with "April Showers"
This hit was introduced to New York on October 19. Recorded, October 20. On the 24th, finished Re-CREATIONS reached Chicago via U. S. Airplane Mail; and a New Edison Re-Created "April Showers" for a crowded ball-room at the Edgewater Beach Hotel.

Here!!! 9 to 90 days ahead!

Do you want to be up-to-date with the new songs and dances?
Edison was out with "April Showers" 5 days after New York first danced to it,—and it proved to be the fox-trot of the season.
Edison has scored "beats" on almost every worthwhile popular number of the past year. This is because Mr. Edison has perfected the fastest system in the world of getting and manufacturing the hits. This system, in combination with our own hit department, makes Edison owners FIRST in this town to have the latest songs and dances.

The NEW EDISON

The New Edison Re-CREATES these hits with the very pep and personality which Broadway's favorite orchestras and performers originally put into them.
This is because the New Edison Re-CREATES the music of the living artist so perfectly that there is no difference between original music and Re-CREATED music. This is proved,—by tests of direct comparison.

Come in. Hear the marvelous New Edison Re-CREATE some new popular selections. You'll hear the best performances being enjoyed in American homes today.

VITAL STATISTICS.

According to the records of County Clerk Jungman there were eleven births and four deaths recorded during the month of January, 1922.

Mr. Jungman requests the Anvil Herald to call the attention of those responsible that it is a misdemeanor to fail to promptly report deaths and births, and any one failing to do so is liable to a fine, and are even liable to be billed by the Grand Jury. These records are of vast importance and they should be full and complete. In the years to come they may be the only means by which titles and other legal matters can be determined and it is the duty of survivors and the attending physicians in cases of death, and of parents and physicians in cases of birth, to make prompt reports.

Clerk Jungman also reports a total of eleven marriage licenses issued during the month of January, 1922.

ABOUT TRADES DAY.

Hondo Anvil Herald:

In reply to your article on Trades Day, will say that until some person, persons, or such an organization as the Chamber of Commerce decides to do something, Trades Day will be as it always has been. Persistent advertising will do more than anything else to bring about a better condition. First and foremost the Anvil Herald should be in every home in Medina County. Now, how to do this is to make a special offer to each and every person in the county who is not a subscriber for three months. Second, if the Anvil Herald contained some good story or stories such as hunting, fishing and sports of all kinds. (You will want a story each week which will have the pep.) Now these stories can be picked up right in our midst. Make a standing offer of \$10 to the person who sends in the best story. Of course, you do not print the name of the person who wrote it, for people are sensitive about seeing their name in print. Third, if the Anvil Herald would print or follow some national murder case or some case such as the negro Grace case in San Antonio, it would do better, for the people want excitement and not what you are giving them now, for I have been a reader of the Anvil Herald for years and when I get through with the locals and personals, I am through, for there is nothing else that is interesting to me although different people like different things. But when you follow a murder case give the evidence as it is given in court for that is what grips the people. Go to the Tax Assessor and get every tax payer's name and after you get some real articles in your paper send a copy to each one and in it make your special offer for three months. Now I am not trying to run your paper, but I know what the people want. Every sporting story that is any good at all can be sold to sporting magazines.

Now as we have the paper in each home, we are ready for Trades Day. First and foremost we need a plot of ground near the business district of Hondo which should be fenced in on all sides; but do not charge one cent admission, for after people get in those who have money will spend enough to support the event, and those who do not have the money will not harm us. In the morning will be the time for trading. Now farmers have corn, oats, etc. Let them bring them in, trade with other farmers, and the merchants should arrange to take a bushel or two off their hands. Many people have cows, horses, mules, etc., that they would like to trade. Have them bring them in. But for the sake of Trades Day don't say anything from an elephant to a monkey for that makes people laugh and say oh! what is Trades Day? Who has an elephant or a pigeon-toed duck? Advertise for things people have. At noon furnish the people with barbecued meat, bread, pickles, etc. for a nominal price. Also have hamburger stands, soda water stands, etc. But all this revenue should go to the Trades Day fund and not to some individual's pocket. Now in the afternoon we will have a bronco busting contest, steer riding, etc. Later, have a ball game or some such attraction free, also champion steer rider or bronco buster gets a prize. Carnival attractions can be bought from H. C. Evans & Co., Chicago. Now if each and every member of the Chamber of Commerce or C. of C. and American Legion combined will give his support we will have a Trades Day that will be something to our community. But if they all sit down and say "we can't," there will never be a Trades Day. But if they say we will fight until we win, just like our boys did in France, they will win. Now, Mr. Merchant, Banker etc., turn a few of those dollars (or rather lend them) to the Trades Day fund for one month and see how much better off the community is.

Now, wasn't the Armistice Day event a success? Yes, it was! Why? Because there was push behind and pull behind it.

Now if we can't start big, let's start small and grow. Let us at least start some kind of fund, for no enterprise will go unless some body puts a few eagles behind it. But it can support itself after we get started.

Now, Mr. Editor, put this proposition before the C. of C. and the American Legion and print this and put it up to them.

Who am I? I am a person who wants to see the county bettered and when it is we will have a better people.

Subscriber.

Now Mr. Editor, these things can be done if any one man in Medina county has nerve enough to buck up and try.

New Dipping Vats

Located This Week.

Commissioner Roberson, Inspector Murray and their committee have located new dipping vats for this precinct as follows:

W. B. Slater's, Alfred Naegelin's, Mrs. Adams Black Jack Farm, J. F. Riley's, D. H. Griffin's, Mr. Stinson's, John Crawford's, J. W. Roberson's, Henry Mangold's, nine new ones. There are now vats at J. Adams', George Schmidt's and J. W. and Armin Bendele's farms, making thirteen for this corner of the county. Work must begin real soon on building in the vats as the quarantine goes into effect April 1st.

Gathering Spinach Slowly.

Instead of 30 or 40 cars of spinach going out, we have shipped not more than 8 or 10 cars, we are informed. It is a plant that must be handled just right, and the weather has been very unfavorable for shipping. It has served to bring up the price, however, we are informed, and we may have gained by the delay. With the clearing of the weather, we expect better results.

Jno. T. Briscoe attended District Court in Pearsall this week.

Sterling C. Evans, an ex-Devine boy, now with the Extension Department of the A. & M. and head of the Boys Clubs of Texas, came over from Hondo Saturday afternoon with County Attorney D. C. Brown and spent the evening at this editor's home with a party of young friends. He left on the midnight train for his parent's home in Pearsall.

Miss Alvina Kempf came up from Miguel Saturday and went out to the Kempf farm.

From Black Creek.

The stockmen held a meeting in Zigzag Thursday morning and agreed to erect three dipping vats, one to be on Mrs. Lou Crawford's farm, on Black Creek, Devine road, and one on the Stinson farm west of here. Have not decided just where the other is to be located, but some where in Keller neighborhood, we are informed. Several men from Hondo attended the meeting.

Work on the Yancey straight road commenced last week and is being rushed. An offset in the first survey caused some delay, but that has been straightened out and all is going smoothly again.

LACOSTE LEDGERETS

From the Lacoste Ledger.

Fire Destroyed Corn and Sheller.

Fire totally destroyed two red picket corn bins and sheller belonging to the Biry Bros., at Spindletop, Tuesday, February 7th. While they were shelling corn out of the above bins, the exhaust from the tractor set some loose shucks afire and in a second the flames spread over the bins and sheller.

A bailer and some 200 bushels which were already shelled out was all that they could save.

It is estimated that some 900 bushels of corn burned besides the sheller.

More Rattlesnakes Killed.

One day last week Messrs. H. W.

Keller, Alfred Tschirhart, Paul and Max Meehler and Bill and Ed. Bowman made it hot for a nest of rattlesnakes. They smoked out of one cave in a small creek in Mr. Keller's pasture above the Sauz, 22 large rattlers, 2 bull snakes and one coon. They used a pole with a loop at the end and as soon as one showed her head they roped her. Since the creek is not known to have a name they named it Rattlesnake Creek.

Wm. Keller was at Hondo on business Monday.

Joe Gross of D'Hanis was here on business Monday.

R. Gross returned last week from a few month's stay at his ranch below D'Hanis.

Mr. and Mrs. Adam Droicourt and son Oscar and daughter Miss Cecil and Mrs. Lena Bentz and Julius Ahr from Castroville spent the afternoon with Joe O. Droicourt and family here Sunday.

Mr. and Mrs. Albert Bilhartz from Biry were here on business and pleasure Saturday.

STANDARD AMERICAN ANNUAL.

1922 World Almanac Complete in Every Detail.

The full texts of the Four-Power Pacific Treaty, the Three-Power Agreement on Naval Armament, the Anglo-Japanese Treaty, and the Irish Free State Treaty are contained in the 1922 World Almanac, together with an account of the doings of the Conference on the Limitation of Armament held at Washington, including the American naval proposals in full, as well as the addresses of President Harding, Secretary Hughes, Premier Briand, Mr. Balfour and the other plenipotentiaries. The Chronology, or diary of events, covers happenings all over the world, day by day, and the list of deaths includes every man and woman of note in every country who passed over during the year. The Almanac gives tables from the 1920 Census, showing how many Japanese, Germans, Russians etc., there are in each State in the Union, together with full tables, by States and ages, covering illiteracy, school attendance, etc., together with the number of males and females. State by State, of voting and military age, naturalized and alien. The tables on farm values, crops, mortgages and the like are complete. There are valuable census statistics covering all the chief cities in the United States. The population and area data cover every country on earth, with lists of rulers, Premier, and Cabinets. The transportation tables cover canals and railways, and the trade tables cover the imports and exports of all great nations. The calendar and other astronomical information; the tables of altitudes, weights and measures; the weather records, the Dictionary of Biography—all are revised to date. The election figures and the New York City and State data are fuller than ever. The book should be in the hands of every merchant and banker, every pupil and teacher, every American.

The World Almanac is published by The New York World. Price 50 cents, postpaid.

WONDERFUL WEATHER PREDICTIONS AMAZE THOUSANDS.

For more than 25 years there has been published in St. Louis, Mo., the most remarkable book of its kind in the world. This book has attracted national notice year after year because of the accuracy of its weather predictions. Thousands of farmers, orchardists, dairymen and families generally have for years planned their work by the information given in this Almanac and it has saved them hundreds of thousands of dollars, because of the advance weather information they have secured from its pages. All the big storms, tornadoes, blizzards and unusual weather conditions have been predicted by it a year in advance and to the very day.

The 1922 edition of The Saint Louis Weather Book, known for years as the Hicks Almanac, contains more than 165 pages, illustrated with storm charts and containing all the predictions for 1922, is now ready for distribution.

Thousands of these books are going out by mail every day. The present demand will soon exhaust the first edition of 100,000.

If you will send 45c to The Lincoln Press, 3401 Franklin Ave., St. Louis, Mo., they will send you a copy prepaid by mail and guarantee a safe delivery.

If you will mention this paper and send 10c extra in stamps, they will send you in addition a copy of their 64-page book, The Scientific Weather Forecaster.

This Weather Book is needed in every home. Thousands say they cannot get along without it.

"Did you see that collar butt-in?"

"Listen, Peggy—every mudder gives KELLOGG'S to her kiddies because you can eat great big bowls an' they taste good—er an' they're allcrispy an' dandy an' never tough like leather!"

You never tasted Corn Flakes so joyously flavored, so crispy-crunchy as Kellogg's

That's why big and little folks who know the difference insist upon KELLOGG'S! The thing to do is to make comparison—Kellogg's against any other kind of corn flakes you ever ate! If it's all-the-time crispness or delicious, appetizing flavor you want—well, just you eat Kellogg's! And, what a delight to know they're never leathery or tough!

You'll get so cheerful about Kellogg's that the day's best hours will be when it's time to sit down with the family in front of generous bowls all filled most to bursting with those big, sunny-brown Corn Flakes! Never was a better time than tomorrow morning to prove that KELLOGG'S Corn Flakes are about the "gladdest of all good things to eat."

Insist upon KELLOGG'S—the kind in the RED and GREEN package—if you want to know how wonderfully good corn flakes can be!

Remember — KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND.
